

DIAGNOSTIC TOOL USAGE INSTRUCTIONS

Before being able to use the Westward supplied diagnostic tool to read and clear DTCs on 2018 + models, as well as perform other functions, the following process must be followed:

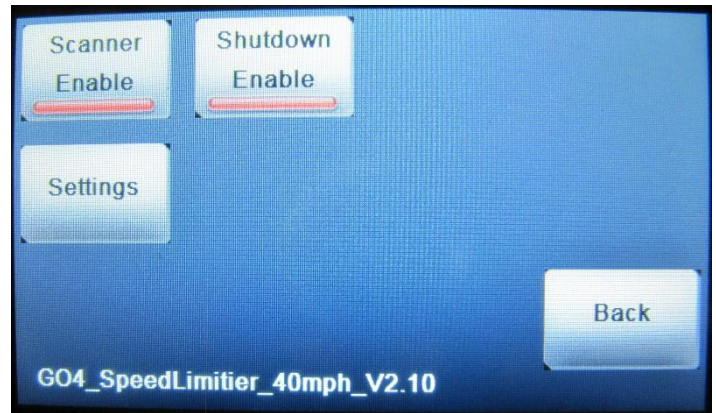

Main Menu

1. Insert the key and turn to the "ON" position.
2. Tap the center of the digital display screen to access the main menu.
3. Tap the maintenance icon to access the maintenance menu.
4. Enter the service password A1964

Maintenance Menu

5. Tap the scanner enable icon as necessary until the horizontal bar at the bottom of the icon is green (diagnostic tool use enabled).
6. Connect Westward supplied diagnostic tool to data link connector (DLC). Search for model Picanto/Morning (JA) 2018 under KIA
7. Once diagnostics are complete make sure to tap scanner enable icon to make the bar red again (diagnostic tool use disabled), otherwise the screen will display all lights, and NOT function.

DATA LINK CONNECTOR LOCATION

The data link connector (DLC) for connecting the Westward supplied diagnostic tool to the vehicle is located under the right side of the lower dash below the auxiliary switches.
